Schooling’s triumph at the Rio Olympics - Ast/P Tiago Barbosa shared his research expertise in swimming biomechanics with Channel NewsAsia, TODAY, and BBC News.

PESS had the pleasure to host our visiting scholars:
- Dr Willy Colier (Artinis Medical Systems)
- Prof Nikos Chatzisarantis (Curtin University, Australia)
- Prof Ken Hodge (University of Otago, New Zealand)
- Mr Balbinder Singh (CHIJ Toa Payoh, Singapore)

- In July 2016, PESS successfully held the Physical Education and Sports Science Skill Acquisition Symposium incorporating the 9th Australasian Skill Acquisition and Research Group Meeting (ASARG) in Singapore.
- In collaboration with the University of Bath, PESS ran a public seminar featuring Physical Activity and Nutrition for Metabolic Health in Singapore in September 2016. A return visit by A/P Stephen Burns to deliver a seminar in the United Kingdom followed in November.

• Dr Chung Ho Jin (Principal Investigator) was awarded a start-up grant (SUG) to study the discourse within Physical Education classes of primary school students in Singapore.
• Ast/P Koh Koon Teck (Principal Investigator) received an Educational Research Funding Programme (ERFP) grant to examine the use of information communication and technologies tools in Physical Education.

Students’ Corner

• 6 graduate students participated in the NIE Graduate Student Conference 2016; winner of the 3-minute thesis (3MT) competition went to Cheryl Tay (PhD student supervised by A/P Veni Kong).
• Jesudas Emanuel Menon (PhD student supervised by A/P Stephen Burns) won 3rd prize for his poster presentation at the 2nd International Conference in Sports Science and Technology.
