NIE MOVING FORWARD: TOWARDS 2017
STRATEGIC ROADMAP

STRATEGIC PILLARS
In the NIE Strategic Roadmap 2017, the Institute’s long-term Vision and Mission are supported by three main Strategic Pillars:

1. Knowledge Capital
2. Partnership
3. Institutional Capacity-Building and Corporate Professionalism

STRATEGIC THRUSTS
The Pillars cascade down into three corresponding Strategic Thrusts that will guide the planning and implementation of key NIE Initiatives for the next few years:

1. Developing star programmes, strengthening 21st Century pedagogies and enhancing research capabilities
2. Enhancing partnerships with key stakeholders to grow both teaching and research impact
3. Boosting corporate capacity, culture and professionalism

The Strategic Thrusts are underpinned by greater strategic focus on enhancing the impact of NIE’s programmes and developing the capabilities, professionalism and collegiality of NIE staff.

CULTURE & CORE VALUES
All of the above are built on an essential foundation firmly anchored by NIE’s key value propositions – Responsiveness, Relevance and Rigour – and enduring Core Values – Professionalism, Collegiality, Integrity, Appreciating Diversity and Embracing Change.
